🎓 EDUCATION

Bachelor of Computer Applications (BCA)

Dr. BMN College of Home Science

Core Focus: Software Engineering, Database Management Systems (DBMS), and Computer Networks.

Higher Secondary School Certificate (12th Std)

Andhra Education Society

Stream: Commerce

🧠 SKILLS

- JavaScript (ES6+), Node.js, Express.js, SQL / SQLite, RDBMS Concepts, HTML5 / CSS3, GitHub & Git

📁 PROJECTS

Student Records Manager (Full-Stack CRUD Web App)

https://github.com/vijiyaboga-cyber/BCA-Student-CRUD-Application

- Developed a responsive full-stack web application using Node.js and Express.js framework components to implement live data-handling operations.
- Built dynamic server-side REST API routing layers (GET and POST endpoints) to handle real-time student profile generation and record deletions securely.
- Designed a clean client frontend layout with modular responsive CSS configurations.

Netflix Catalog Data Analysis (SQL Analytics Engine)

https://github.com/vijiyaboga-cyber/Netflix-SQL-Data-Analysis

- Modeled structured relational database operations using the SQLite engine to process extensive global media production catalog records.
- Authored advanced SQL script configurations executing multi-layered conditional filters (WHERE, IN) and data aggregations (COUNT, GROUP BY).
- Extracted and formatted raw query returns into structured markdown reporting matrices to isolate distribution trends.
